

FUME EXTRACTOR

- Brushless DC motor
- Aluminium alloy turbine
- Low noise emission - 55dB
- 10 speeds

Smoke hood
 High temp resistant latex

Base Plate
 Split design, improves the utilization rate of filter element

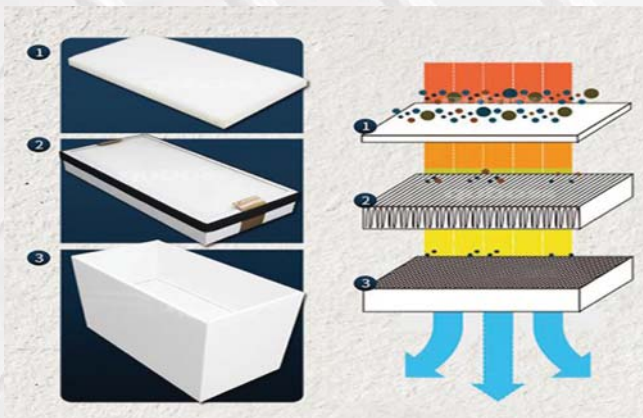

Exhaust Arm 1.3 m
 360 degree adjustment
 Removeable sections to shorten or extend

Control Panel
 Adjustment of wind speed

Handle

EXTRACTOR: LW1901

Lockable Caster Wheels
 For easy transporting

3 Layer Filter System

Primary effect filter - Cotton filter
 Large particles of dust and suspended matter in the air

Effectly Filters and purifies bacteria, and other pollutants in the air

Activated carbon filtration effectively filter out and purify harmful gases

CARTRIDGE: L1001
