

KNEEPRO ULTRA FLEX III

S96110

- Sellstrom's KneePro Ultra Flex III knee pads have been the industry standard for more than 30 years
- The articulating hinged design ensures proper placement all day long – set them once and forget you are even wearing them
- Soft elastic, extra-wide woven straps with reinforced sewn ends are placed well above and below the knee – no Velcro, which contaminates over time
- Straps stay aligned with your legs in any position – will not bind behind the knee
- Built with strong, flexible hard plastic outer shells that extend well above, below and to the inside/outside of the knee for added knee and leg protection

- Metal rivet hinge ensures long lasting protection while kneeling or walking
- On the outside, pads feature a perfectly placed curved non-marking Grip Strip
- On the inside, pads offer a long lasting 5/8" closed cell foam pad for maximum comfort and protection
- Sweat does not penetrate closed cell foam – lasts longer and won't "stink"
- Specially designed Quick-Snap clips ensure quick and easy removal
- Pads weigh only 200g (9 oz) each
- This is the ultimate knee pad for extreme applications where users are on their knees for extraordinarily long periods of time
- Unlike many GEL pads on the market, our GEL packs are securely placed inside a three layer, 3/4" closed cell foam knee protector compartment and are guaranteed to stay leak-free
