

GAS LENS COLLET BODIES

- Pull off outer screen doubles the gas lens life.
- No more erratic arc due to clogged screens.
- No more contaminated welds due to poor gas coverage.

No more searching for another gas lens when a mishap occurs contaminating the outer screen of the gas lens. Simply use a sharp tungsten electrode to engage the top screen pull tab and peel off the damaged outer screen exposing a fresh screen allowing you to continue your work.

WELDTEC'S
Patented pull tab outer
screen design doubles the
life of the gas lens

Part No	Description	Torch Series
45V43-2	1/16 (1.6 MM) "2 fer" 1 Gas Lens	9, 9F, 9FV, 9V, 20, 20F, 20H, 20V, SW-320
45V44-2	3/32 (2.4 MM) "2 fer" 1 Gas Lens	
45V45-2	1/8 (3.2 MM) "2 fer" 1 Gas Lens	
45V25-2	1/16 (1.6 MM) "2 fer" 1 Gas Lens	17, 17F, 17FV, 17V, 18, 18V, 26, 26F, 26FV, 26V, SW-418
45V26-2	3/32 (2.4 MM) "2 fer" 1 Gas Lens	
45V27-2	1/8 (3.2 MM) "2 fer" 1 Gas Lens
