

WELDING GAUGES

AF60MG - Front

AF60MG - Back

AF40MG - Front

AF40MG - Back

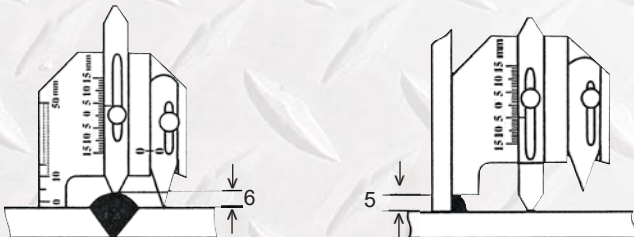

The gauge consists of four components:

- Main scale
- Height gauge
- Undercut depth gauge
- Multiple purpose gauge

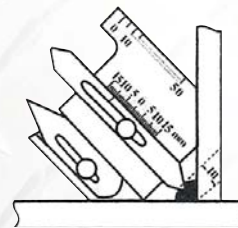

Part No	Description
AF40MG	40 mm Welding Gauge
AF60MG	60 mm Welding Gauge

Stainless steel gauge used for measurement of the bevel angle, height, width, gap and undercut depth of weldment.

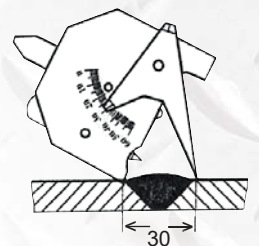

Flat weld height measurements

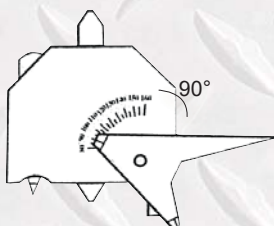

Fillet weld thickness measurements

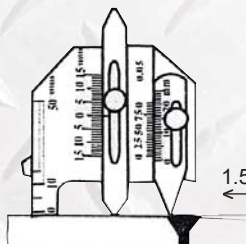

Weld seam width measurements

Weldment bevel angle measurements

Weld seam undercut depth measurements

Gap size measurements
