

**SAFETY DATA SHEET****1. Identification of Material and Supplier**

Product Name **TEMPILSTIK 482F (250C)**
Part Number **TSC0250**
Other Names None allocated
Recommended Use Temperature indicating product
Supplier's Name **Independent Wholesale Welding Supply**
Address **Unit 2/170 Power Street, Glendenning, NSW. 2761**
All mail to: **PO Box 284 Doonside NSW 2767**
Telephone **61 2 8834 2400** **Facsimile** **61 2 8834 2498**
Technical Support **61 2 8834 2400** **E-mail Address** **iwws@iwws.net**
Web www.iwws.net

2. Hazards Identification**Hazardous Classification**

This product is hazardous according to the criteria of the ASCC, is not a DG Substance according to the ADG Code, is not a Scheduled Poison according to the SUSMP, is not a flammable or combustible liquid according to AS 1940.

Hazard Statements

Carcinogenicity – category 1B
Germ cell mutagenicity – category 2
Reproductive toxicity – category 2
Hazardous to the aquatic environment (chronic) – category 2

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Hazard pictograms (CLP) : GHS08

GHS09

Signal word (CLP) : Health Hazard

Environment

Hazardous ingredients : Phenolphthalein , 1,1,1 Tris Ethane

Hazard statements (CLP) : H350 (May cause cancer)
H341 (Suspected of causing genetic defects)
H361f (Suspected of damaging fertility)
H411 (Toxic to aquatic life with long-lasting effects)

Precautionary statements: P201 - Obtain special instructions before use
(CLP) P202 - Do not handle until all safety precautions have been read and understood
P273 - Avoid release to the environment
P308+P313 - If exposed or concerned: Get medical advice/attention
P405 - Store locked up
P501 - Dispose of contents/container to an authorised waste collection point

3. Composition Information on Ingredients

This product is considered to be hazardous and does contain hazardous components.

Chemical name	CAS Number	Proportion %
Phenolphthalein	77-09-8	96.66
1,1,1 Tris Ethane	27955-94-8	1.86

4. First Aid Measures

4.1 Symptoms of Over-Exposure by Route

Suspected of causing genetic defects. May cause cancer. Suspected of damaging fertility or the unborn child.

4.2 First Aid Instructions

- Ingested** If this product is swallowed, rinse mouth DO NOT INDUCE VOMITING. If unwell call Poison Centre or Physician and take a copy of label and SDS with contaminated individual.
- Eyes** If this product enters the eyes, open victim's eyes while under gently running water. Remove contact lenses, if present and easy to do so. Use sufficient force to open eyelids. Have victim "roll" eyes. Minimum flushing is for 15 minutes. If eye irritation persists: Get medical advice/attention.
- Skin** If this product contaminates the skin, begin flushing with soap and water. Remove exposed or contaminated clothing, taking care not to contaminate eyes. Contaminated individual must seek medical attention if redness or irritation continues after area has been rinsed. Wash contaminated clothing before reuse
- Inhaled** Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.
- First Aid Facilities** Provide normal industrial first aid facilities including eyewash stations and deluge showers, where appropriate, close to the area where product is in use.

Notes to Physician (for symptoms of over-exposure to this product see above)

Treat symptomatically

Possible symptoms of Chronic Health Effects

None reported for product.

Possible aggravated pre-existing conditions

None reported for product.

Suggested treatment for acute symptoms, known antidotes

Provide supportive care and treatment based on the patient's reactions to the exposure. Contaminated individual must be taken for medical attention if adverse effects occur. Take copy of label and SDS to physician or other health professional with contaminated individual.

For further information contact the:

POISONS INFORMATION CENTRE 13 11 26

5. Fire Fighting Measures

5.1 Flammability and Explosion Hazards No specific fire or explosion hazard.

5.2 Suitable Extinguishing Media

Water Spray: YES

Carbon Dioxide: YES

Foam: YES

Dry Chemical: YES

Halon: YES

Hazchem Code: n.all.

5.3 UNUSUAL FIRE AND EXPLOSION HAZARDS:

Burning produces irritating, toxic and noxious fumes. Thermal decomposition generates : Carbon dioxide. Carbon monoxide.

5.4 Precautions for Fire Fighters and Special Equipment

Incipient fire responders should wear eye protection. Structural fire fighters must wear Self-Contained Breathing Apparatus and full protective equipment. Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire.

Prevent run-off water from entering storm drains, bodies of water, or other environmentally sensitive areas.

6. Accidental Release Measures

Emergency Procedures – Spills and Leaks (See Section 13 for disposal considerations)

In case of a spill, clear the affected area, protect people, and respond with trained personnel. Avoid creating and spreading dust. Ventilate the area.

Avoid release to the environment. Do not discharge into drains or the environment.

Avoid generating dust. Contain and collect as any solid.

Place all spill residues in a suitable container and seal. Dispose of in accordance with Federal, State and local hazardous waste disposal regulations (see Section 13, Disposal Considerations).

7. Handling and Storage

7.1 Handling Advice

Obtain special instructions before use. Use personal protective equipment as required. Do not handle until all safety precautions have been read and understood. Avoid breathing dust, fume.

Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

7.2 Storage Advice

Keep container tightly closed.

Store packages in a cool, dry, well ventilated location.

Store away from incompatible materials - Strong oxidizers. Strong bases.

Inspect all incoming packages before storage, to ensure they are properly labelled and not damaged.

8. Exposure Controls/ Personal Protection

8.1 Ventilation and Engineering Controls

Prudent practice is to ensure eyewash/safety shower stations are available near where this product is used.

Respiratory Not usually required. Use supplied air respiratory protection if oxygen levels are below 19.5% or during emergency response to a release of this product. If respiratory protection is required, follow the requirements of the AS/NZS 1716:2012.

Gloves In case of repeated or prolonged contact wear dust impervious gloves for routine industrial use as per AS/NZS 2161 Set: 2008

Eye Protection In case of dust production wear protective goggles as per AS/NZS 1337.

Clothing Wear long sleeved protective clothing.

Industrial hygiene When using, do not eat, drink or smoke.

9. Physical and Chemical Properties

Physical state :	Solid.	Solubility in water :	No data
Colour :	not specified	Flash point [°C] :	Not applicable.
Odour :	Odourless.	Explosion limits - lower [%] :	Not applicable.
pH value :	Not applicable	Explosion limits - upper [%] :	Not applicable.
Density [kg/m³] :	Not applicable		

Other Properties

None relevant to product.

10. Stability and Reactivity

Stability: Stable.

Decomposition Products: Carbon dioxide, carbon monoxide,

Materials with which substance is incompatible: This product is not compatible with strong oxidizers and strong alkalis.

Hazardous Polymerization: Will not occur.

Conditions to Avoid: Avoid uncontrolled exposure to extreme temperatures and incompatible chemicals.

Acute Toxicity

Phenolphthalein (77-09-8)

LD50 oral rat > 2000 mg/kg bodyweight

1,1,1 Tris Ethane (27955-94-8)

LD50 oral rat > 5000 mg/kg bodyweight

LD50 dermal rat > 2000 mg/kg bodyweight

Skin corrosion/irritation	: Not classified
Serious eye damage/irritation	: Not classified
Respiratory or skin sensitisation	: Not classified
Phenolphthalein (77-09-8)	
Carcinogenicity – category 1B	: May cause cancer
Germ cell mutagenicity – category 2	: Suspected of causing genetic defects
Reproductive toxicity – category 2	: Suspected of damaging fertility or the unborn child
Specific target organ toxicity (single exposure)	: Not classified
Specific target organ toxicity (repeated exposure)	: Not classified
Aspiration hazard	: Not classified

12. Ecological Considerations

12.1 Toxicity

Phenolphthalein (77-09-8)

EC50 Daphnia 1 >100mg/l

12.2. Persistence and degradability

Not readily biodegradable.

Biodegradation 8%

12.3. Bio accumulative potential

Phenolphthalein (77-09-8)

Log Kow 2.4

1,1,1 Tris Ethane 27955-94-8

Log Kow 3.88

No other information available

13. Disposal Considerations

- : Do not dispose of waste into sewer.
- : Dispose in a safe manner in accordance with local/national regulations.
- : Avoid release to the environment.

14. Transport Information

No DG regulatory requirements apply to the transport of this product

15. Regulatory Information

Labeling requirements under the *ADG Code*, the *SUSMP* or the "*National Code of Practice for the Labeling of Workplace Substance*" [ASCC: 2012 (1994)] do not apply to this product as sold.

16. Other Information

Disclaimer

No representative of IWWS any other person has the authority to alter or amend this SDS or the information contained therein without the prior approval of IWWS management. Any alterations render this document invalid. The information presented in this SDS is believed by Independent Wholesale Welding Supply to be accurate at the date shown and in accordance with information available to the Company. Information relating to non-hazardous component can be obtained from the manufacturer : LACO INDUSTRIES, INC. 1201 PRATT BOULEVARD ELK GROVE VILLAGE, IL 60007

.The circumstances and methods of using, handling, transporting or storing the material are beyond our control and persons using, handling, transporting or storing the product do so at their own risk. Independent Wholesale Welding Supply accept no liability for damage or injury arising from the use of the information contained herein.

**Original Date
of Issue: 30/12/2015**

New SDS (Version 1.) to comply with National Code of Practice for the
PREPARATION OF SAFETY DATA SHEETS FOR HAZARDOUS CHEMICALS.
